Operating Manual

Single LED Spotlight / 3 Pack LED Spotlight / Large LED Spotlight Include:

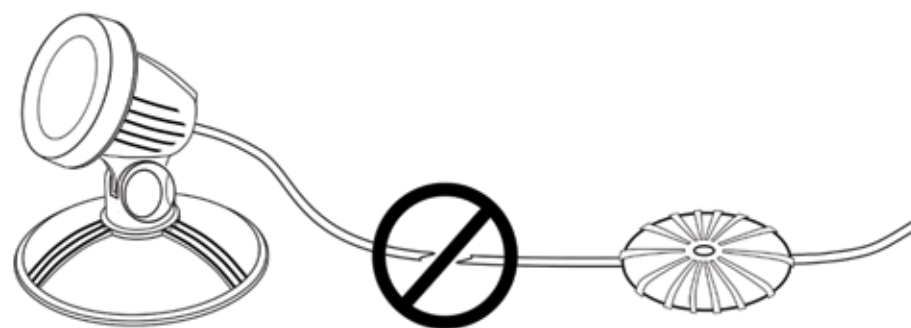

- "Warm White" LED spotlight(s) with 22' power cord and quick connect plug.
- Built- in photocell with ground stake that automatically turns the lights on & off.
- Light base(s) and outdoor transformer.

Caution

- This unit must be installed in a circuit protected by a ground fault circuit interrupter.
- For your protection, always unplug the transformer from the power source before servicing.
- This unit may get warm when used in an open air application, turn off power and allow unit to cool before servicing.

Installation:

- AWGLED Lights can be installed using the adjustable stand- for placement under waterfalls or highlighting areas in the stream-bed, or the stand can be removed – for placement among the rocks around the pond.
- It is recommended that lights be positioned facing away from viewers.
- If you intend to camouflage the cord with rocks and gravel, always leave enough slack so that the fixture can be raised above water level for servicing.
- Always verify that the lens cover is tightly secured before submersing the fixture.
- Always verify that the O-ring is properly installed after opening the fixture for servicing.
- *Never Cut or remove the Photocell*

Components inside the photocell regulate the voltage that is delivered to the LED Light. Removing the photocell will cause the light to fail and will void the warranty. If the photocell is not needed, simply remove the ground stake and cover or bury the photocell underground.

Once the lights are installed, connect them to the transformer using the quick connect plug. If you are connecting multiple lights we recommend using the SOL20X4 Transformer and 4-Way Splitter. The SOL20X4 can be used with any combination of (4) SOL LED Lights. If connecting light to an existing 12 volt system, remove the quick connect plug (leaving the photocell connected), strip and splice wires.

Warranty:

All SOL LED lights carry a one year warranty. This limited warranty is extended solely to the original purchaser commencing from the date of original purchase receipt. A misuse or abuse of this product voids the warranty. In case of warranty claims, the product must be returned to place of purchase accompanied by original receipt.
