POND PUMPS

Energy Efficient Pond & Circulation Pump

EHFS SERIES

The Evolution EHFS Series pond pump gives excellent flow while using minimal energy. Designed for high head applications, this pump is perfect for larger ponds and water features that require greater pumping heights. Pumps are designed for out of pond applications and are not for use as submersible pumps.

Features

- Whisper quiet operation
- High efficiency
- Built-in priming pot and strainer
- Stainless steel hardware
- 9 ft cord on 115 volt models
- Quick disconnect 2" unions
- Flow rates up to 12,600 gph
- 1 Year Warranty
- Conforms to UL, CSA, and ETL standards

Construction

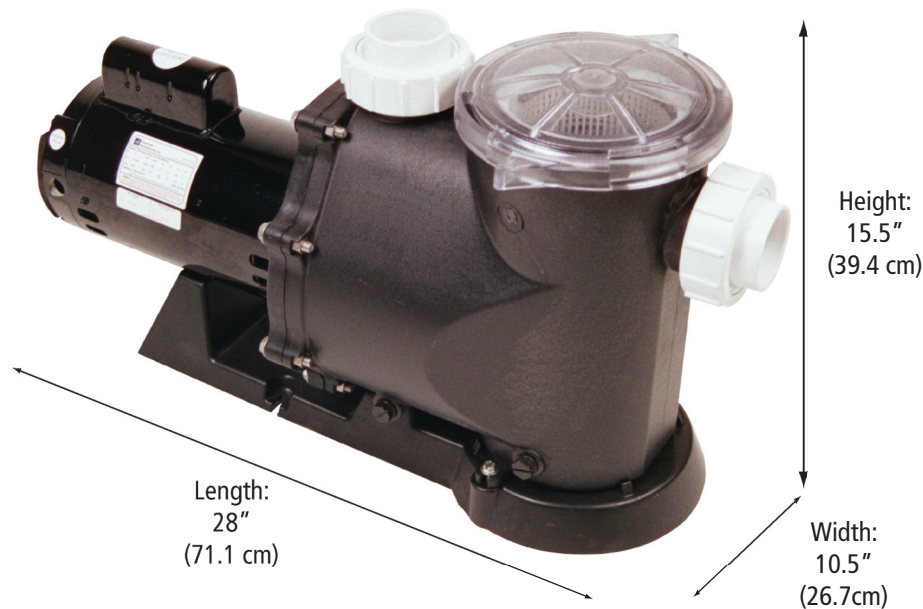

- Intake – 2"
- Discharge – 2"
- Pump housing – glass filled ABS
- Impeller – Noryll®
- Shaft Seal – Carbon ceramic
- Unions – PVC
- Salt water seal option available
